

Please do not abolish the regulations regarding media concentration. It is your duty to see that the airwaves are maintained in the public interest, which demands as much diversity of opinion as possible. It is undemocratic to allow such concentration of power in the hands of a bunch of rich men who have NEVER spoken for the public. You should be divesting them of their monopolies, not protecting them. Have you never read ANY documents regarding the first amendment and how it is to serve democracy? Please stop acting in the corporate interest of a small group of men and in the public interest, as is your mandate. Sincerely, MDL

Sincerely, M. DeSales Linton, Esq.
